### *Analysis by the Legislative Reference Bureau*

Current law requires the Department of Transportation (DOT) to publish highway service maps showing the state trunk highway system and folded highway maps of the state. Under current law, numerous state trunk highways and bridges have been designated in various ways as veterans memorials.

This bill requires DOT to identify on the highway service maps and folded highway maps it publishes for sale or distribution to the public each veterans memorial highway or bridge and the location of specified veterans memorials, homes, and museums.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
